## **Unico, Inc. Announces New Photo Gallery Showing Key Equipment Installed as Part of the Reconstruction of the Mill and Processing Facility at the Deer Trail Mine**

Issued Wednesday December 6, 9:02 am ET

SAN DIEGO, CA--(MARKET WIRE)--Dec. 6, 2006--Unico, Incorporated (OTC BB: UCOI), a natural resource company in the precious metals mining sector, today announced that a new picture gallery showing recent reconstruction of the mill and processing facility at the Deer Trail Mine in Marysvale, Utah has been loaded to the company's website. The new photo gallery can be viewed at the "Media" section of the Unico website at [www.unicominer.com/news/othermedia.php](http://www.unicominer.com/news/othermedia.php).

The new photo gallery is comprised of several sections, each related to construction and the placement of equipment in the main mill building. Several of the pictures show the building of a structure that houses conveyors that run between the feed bins and the ball mill. Another section contains photographs of the completed ball mill and equipment for the mill's floatation circuit, including the Gallagher float cells installed above the ball mill. The Gallagher cells will be primary float cells for the lead and silver circuit. The Denver float cells, which work as cleaner cells to make the lead/silver concentrate a higher grade, can also be seen in place after being installed in the main mill building. One of the conditioner tanks, which is part of the floatation circuit, has been moved into place between the Denver float cells and ball mill.

"The placement of these key pieces of equipment is an important part of the mill reconstruction process, and we are pleased to provide these pictures for our shareholders and others who may be interested in our progress at the Deer Trail Mine," said Mark A. Lopez, chief executive officer of Unico, Inc. "Completion of the mill and processing facility is a high priority, as is regular communication with our stockholders. We look forward to reporting further milestones and providing the media that shows each step in reconstruction and improvement of the mill site."

Shareholders who would like to sign up to receive information by email directly from Unico, Inc., particularly when new press releases, SEC filings or other information is disclosed, are asked to visit the company's website at <http://www.unicominer.com/IR/maillinglist.php>.

### **About Unico, Inc.**

Unico, Inc. (OTC BB: UCOI), is a publicly traded natural resource company in the precious metals mining sector that is focused on the exploration, development and production of gold, silver, lead, zinc, and copper concentrates at its three mine properties: the Deer Trail Mine, the Bromide Basin Mine and the Silver Bell Mine. The company has recently announced agreements to acquire over 70 additional mining claims. For more information, please visit [www.unicominer.com](http://www.unicominer.com).

### **Forward-Looking Statements**

This news release may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and such Section 21E of the Securities Exchange Act of 1934, as amended. Such statements are subject to risks and uncertainties that could cause actual results to vary materially from those projected in the forward-looking statements. The company may experience

significant fluctuations in operating results due to a number of economic, competitive and other factors. These factors could cause operation results to vary significantly from those in prior periods, and those projected in forward-looking statements. Information with respect to these factors, which could materially affect the company and its operations, are included on certain forms the company files with the Securities and Exchange Commission.
