Unico, Inc. Announces Update on Activities at the Deer Trail Mill and Processing Facility Including Production of Concentrate

Issued Wednesday December 10, 9:45 am ET

SAN DIEGO, CA--(MARKET WIRE)--Dec. 10, 2008--Unico, Incorporated (OTC BB: UNCO), a natural resource company in the precious metals mining sector, today announced recent activities at the mill and processing facility at the Deer Trail Mine in Marysvale, Utah, including the production of concentrate ready for shipment.

A new photo gallery showing activities at the mill facility will be added to the Unico website, www.unicominig.com, in the next several days.

The new crusher has been installed and a 500-ton allotment from the 3400 E ore body is being crushed and sampled on a timed-interval basis.

Fine tuning of the mill has been completed and the company has produced two allotments of sulfide concentrate ready for shipment from the 3400 E ore body. The two 20-ton shipments have been placed into shipping bags and checked for moisture content.

A composite sample has been taken by an independent assay lab for verification and geological work is ongoing to pinpoint higher grade material in the 3400 E zone.

Additional test work is being conducted onsite in the Deer Trail metallurgical laboratory including recovery of the precious and non-precious metals from the concentrate by other lixivates. This test work is presently being conducted in conjunction with marketing to an outside refinery. Metallurgical work on the newly crushed ore is ongoing to fine tune and further improve overall recovery at the mill facility.

“We are extremely pleased to have advanced our project to this stage and look forward to shipping the concentrate that has been produced at the mill facility,” commented Mark A. Lopez, chief executive officer of Unico, Inc. “Improving recovery through ongoing geological and metallurgical work at the site are also very important elements of our strategy to further develop additional value at the Deer Trail Mine. We will continue to provide updates to keep our shareholders informed of additional developments.”

Shareholders who would like to sign up to receive information by email directly from Unico, Inc., including when newsletters are posted to the company website, are asked to visit the company’s website at <http://www.unicominig.com/IR/maillinglist.php> and fill in the appropriate fields.

About Unico, Inc.

Unico, Inc. (OTC BB: UNCO) is a publicly traded natural resource company in the precious metals mining sector that is focused on the exploration, development and production of gold, silver, lead, zinc, and copper concentrates at its two mine properties: the Deer Trail Mine and the Silver Bell Mine. The company has also announced agreements to acquire over 70 additional mining claims including the Clyde and Crown Point mining claims. In August 2007, Unico announced that its wholly owned Deer Trail Mining Company subsidiary had completed the purchase of the Deer Trail Mine from Crown Mines, LLC.
