SAN DIEGO, CA--(MARKET WIRE)--May 7, 2009--Unico, Incorporated (OTC BB: UNCO), a natural resource company in the precious metals mining sector, today announced that on April 30, 2009, chairman Ray C. Brown acquired an additional 1,520,585 shares of Unico common stock, bringing the total number of common shares that Mr. Brown owns to 6,435,493. "With the company currently looking to implement a process to extract silver and gold from concentrate recently produced at the Deer Trail mill facility, I am pleased to have the opportunity to acquire additional common stock at this time," commented Mr. Brown.

Unico, Inc. has reported that the company intends to add an additional step to the processing of gold (Au) and silver (Ag) at the mill and processing facility at the Deer Trail Mine in Marysvale, Utah. The company's metallurgical engineer has developed an economical solution, and engineering work is currently being conducted to finalize the design and blueprints. Once completed, the company expects to begin extracting silver and gold from its recently produced concentrate using an alternative processing method.

The final product is expected to consist of gold and silver bullion. Results of on-site metallurgical test work have led the company to pursue the alternative method of recovering the precious metals contained in the sulfide concentrate produced at the Deer Trail mill.
